PARTNERSHIP

ANGUS BULL SALE

60 SmartBulls

October 29, 2026

Jordan Cattle Auction

1310 W Hwy 190

San Saba, Texas 76877

10:00 AM CST

Thank You!

Jorgensen Land & Cattle
PARTNERSHIP

Thank you for joining Jorgensen Land & Cattle at Jordan Cattle Auction on October 29, 2026 at 10 AM. We first began selling SmartBulls® nearly 20 years ago and their popularity among cattlemen continues to grow because they have the capacity and age to breed your cows without excess pampering. In addition, cattlemen can breed more cows with fewer bulls than if they use younger bulls.

These bulls are backed by 60+ years of breeding and selection in Ideal, SD, built by a cow herd developed to produce bulls that build productive, durable cows that work in real-world environments.

All of the bulls in this sale will have a suite of EPDs generated by the Ideal Beef Evaluation (IBE). This increases the genetic predictive power of our SmartBulls® and AgBoost® helps us communicate that data visually to cattlemen. All EPDs for these bulls are Ideal Beef Evaluation EPDs.

We want to express a big "Thank you" to our customers, family, and friends for their continued support and belief in our Jorgensen Land & Cattle breeding program. We appreciate each of you!

Thank you for your interest in our program.

The Jorgensen Family

AgBoost SCORE

- Full Brother to the great Ideal Encore, Gemini brings an excellent combination of calving ease and growth
- Encore, the most impactful sire in the Jorgensen Program in the last 15 years, has a Progeny WWR of 101 and Progeny YWR 102. His daughters are feminine and productive, bringing a combined WWR of 102.
- The dam of Gemini, the \$50,000 Ideal 3020, selected by Voss Angus in the 2022 MotherLode Sale, is one of the most influential donors the program has seen.

AgBoost SCORE

- Siring lots 4 & 5, the incomparable "Band 174" continues to build on his legacy. In his history, his calves earned a 103 WW ratio and 104 YW ratio.
- There are two different Maternal options:
 - Lot 4's dam, 4124, is one of the most prolific donors the Jorgensen Program has had. She is still working today at Voss Angus in Iowa.
 - Lot 5's dam, 9411, was the top selling female in the 2025 MotherLode Sale to Jason Willis. She has a stellar record of her own, with Progeny ratios of 104 WW and 102 YW. She raised the \$45,000 top selling bull in the 2026 Top Cut Bull Sale.
 - 9411's mother, 7209, produced 5 herd sires for JLC, including 9411's full brother, Accolade.

THE JLC PROGRAM

In 1952, Martin Jorgensen Jr. and his brother Don started putting together a herd of Angus cows. Between then and the first auction sale in 1972, they worked diligently to build a cow herd that was backed by performance testing data that they were collecting. This heritage of using data to drive decisions and help guide the program was passed along to Greg and Bryan, and then to Cody and Nick.

With the fifth generation back at the ranch in Ideal, SD, the Jorgensen family continues to strive to use the best technology and data available to influence and drive the program forward.

The MotherLode Project is a call back to the original mindset of the program at Jorgensen Land & Cattle. It is a process of stacking the best performing cows they can into a pedigree and mating those cows to sires that are proven to make great females.

Family shines through in cattle and people, and this program is a prime example of both. The cattle are backed by excellent cows and better people, so you can bid and buy with confidence that these cattle will do what we say they are going to do and we will stand behind the cattle.

Power Your Herd with:

IDEAL BEEF GENETICS

IBG[®]

IBG[®] uses 3 Custom Indices from the Ideal Beef Evaluation to help simplify genetic decisions. These Indices are on a 1-10 Scale

JI-H: Index for selecting Heifer Bulls

JI-M: Index for selecting cows/bulls with optimal maternal and performance traits

JI-T: Index for selecting cows/bulls with optimal feedlot/carcass traits for those herds that don't keep replacement heifers

GEPDs Include

- | | |
|------------------------------|-------------------------------|
| • Birth Weight (BW) | • Dry Matter Intake (DMI) |
| • Weaning Weight (WW) | • Feed Conversion Ratio (FCR) |
| • Yearling Weight (YW) | • Average Daily Gain (ADG) |
| • Docility (DOC) | • Intramuscular Fat (IMF) |
| • Milk (MILK) | • Ribeye Area (REA) |
| • Fertility (FERT) | • Fat Thickness (RIB) |
| • Scrotal Circumference (SC) | • Tenderness (TEND) |

A PATH FOR EVERY OPERATION

One source, uncompromising quality...from a single straw to a full breeding season. There are many ways to put Jorgensen genetics to work in your herd. Each one traces back to the Motherlode.

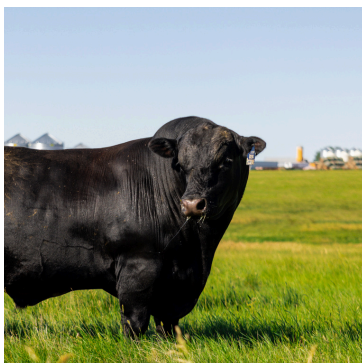

SMARTBULLS®

Breed more cows with fewer bulls.

BULL LEASING

We carry the risk. You focus on your cattle.

SEMEN

Geography is no barrier to our genetics.

EMBRYOS

The way to access the Motherlode genetics.
