

Jorgensen Land & Cattle

TOP CUT BULL SALE

51st Annual Production Sale

APRIL 17, 2023

Starting at 1 PM (CDT) • At the Farm in Ideal, SD

Jorgensen Land & Cattle

PARTNERSHIP

31250 265th Street • Ideal, SD 57541-9230
605-842-3217 • 800-548-2855 • Fax 605-842-3595

Dear Cattlemen & Cattlewomen,

Monday, April 17, 2023, marks our 51st annual production bull sale. It has been our honor to supply you with top-of-the-line genetics in the Angus breed throughout the last 51 years. A lot has changed since our first sale in 1972. Martin Jorgensen, Jr., and his brother Don oversaw the operation as the second generation of the family. Today, Jorgensen Land & Cattle is owned and operated by Martin's sons and grandsons, who make up the third and fourth generation of the family. In 1972, Jorgensen Land & Cattle employed 3 people. Today, it employs 30. The forward-looking mindset that led to the early success of this operation still exists today, and we are grateful for the opportunity we have been provided to improve our business and the industry.

The bulls in this year's offering have not only been semen/fertility tested and performance tested but were environmentally tested through one of the harshest winters in recent memory. The bulls that made it through the other side of the past 4 months are going to be tough, rugged, able-bodied bulls.

While the operation has grown and changed over the years, two things have remained constant- Our high standards for production and selection, and the importance of strong relationships. Our exact standards have enabled our genetics to be impactful over time. 2022 marks the 8th consecutive year that Jorgensen Land & Cattle has been recognized as the largest seedstock producer in America on Beef Magazine's "Seedstock 100" list. With over 200,000 Jorgensen influenced calves born every year, we must keep top of mind the responsibility of always selecting and raising the absolute best genetics.

The other constant is our dependence on good people and good relationships. Our growing business demands a dedicated team of individuals to understand, represent, and operate Jorgensen Land & Cattle. We have immense pride in our team and want to thank all of them for their hard work and dedication. We operate by the Golden Rule: Treat people the way you want to be treated. By striving to keep that in mind every day, we at Jorgensen Land & Cattle believe that the future is very promising.

We would like to thank our customers, family and friends for their continued support and belief in our breeding program. Jorgensen Land & Cattle would not be as successful as it is today without a strong and loyal group of supporters. We are grateful for all the previous and ongoing support.

You are cordially invited to our 51st Annual Production Bull Sale at 1 pm on April 17, 2023, at Jorgensen Land & Cattle Headquarters in Ideal, SD. Bulls will be available for viewing, and lunch will be provided at the headquarters starting at 11 am. If you would like to view the bulls during the weeks leading up to our sale, you will find a link to the videos on our website at: <https://jorgensenfarms.com/top-100-bull-sale/>.

If you are in the area on Sunday evening, you are invited to join us at the Lazy J Grand Lodge for the Pre-Sale Welcome Event (Dinner & Speaker).

Our toll-free number is 1-800-548-2855. Please give us a call with any questions or concerns you may have. Also, for those that can't make it to the headquarters on sale day, the sale will be broadcast live on DVAuction.com. Come and see for yourself why we are truly called "THE SOURCE."

Thank you,
The Jorgensen Family

51ST PRODUCTION SALE

AUCTIONEER: Roger Jacobs

RINGMEN:

Scott Dirk, *Tri-State Livestock News*

Rod Geppert, *Angus Journal*

Jim Gies, *Western Livestock Journal*

Kadon Leddy, *Cattle Business Weekly*

LUNCH:

A complimentary lunch will be served sale day.

ACCOMMODATIONS:

A limited number of rooms are available at the Lazy J Grand Lodge. Please contact Karrisa at 800-548-2855 for information and availability. There are also several motels in the Winner area. You may contact the Holiday Inn Express directly at 605-842-2255.

TRAVEL ARRANGEMENTS:

Winner is located on Highways 18 and 183. Commercial planes service Pierre, SD, which is 97 miles North of Winner. We will be happy to meet your plane in Pierre, providing advance arrangements have been made.

The Winner, SD, airport is open for private planes. Please contact us if you need further airport information.

INSPECTION OF CATTLE:

Bulls are penned at the farm and can be inspected at your convenience, including Saturday, April 15, 2023.

- Actual Scrotal Measurements taken March 29, 2023.
- All bulls have been 50K tested.
- Ultrasound information can be found on Page 73.
- All bulls born between April 27 and May 27, 2022 will have adjusted 365 day yearling weights available on an update sheet, prior to the sale. Due to their late birthdates, they were not available prior to printing.

SALE MANAGEMENT: American Angus Hall of Fame (816) 532-0811

Tom Burke

(816) 853-2697

Kurt Schaff

(816) 520-6447

Alex Popplewell

(270) 566-8822

HEALTH: All cattle will be sold with health papers for interstate shipment.

FREE REGIONAL DELIVERY: Jorgensen Land & Cattle will cooperate in arranging trucking, offering free regional delivery and a maximum cost of \$100 per bull anywhere in the lower 48 states to a central location convenient to you. Please contact Karrisa Bartels at 800-548-2855 (BULL) to arrange delivery.

TERMS AND CONDITIONS: Cattle will sell under the suggested Terms and Conditions of the American Angus Association (https://www.angus.org/pub/suggested_sale_terms.pdf).

INSURANCE: Insurance will be available sale day. Please inform the clerk at the time of settlement if you want insurance. We take every precaution for the care and safety of your purchases; however, we urge all buyers to insure purchases for safe delivery to you.

LIABILITY: All persons who attend the sale do so at their own risk, legal or otherwise, for their safety or the behavior of the animals.

ANNOUNCEMENTS: Any announcements from the auction block will take precedence over the information listed in this sale book. A supplement sheet will be available on sale day with up-to-date breeding and performance information.

ABSENTEE BUYER OPTIONS: If you cannot attend, you may still participate by sending your bid to the Auctioneer, Sale Manager, Ringmen, a member of the Jorgensen team, or View & Bid in Real-Time on DVAuction (<https://www.dvauction.com/>).

If you are in town Sunday evening, you are welcome to join us at the Lazy J Grand Lodge, and as always, join us after the sale on Monday for refreshments and hospitality.

April 17, 2023

ELDORADO SIRE LINE

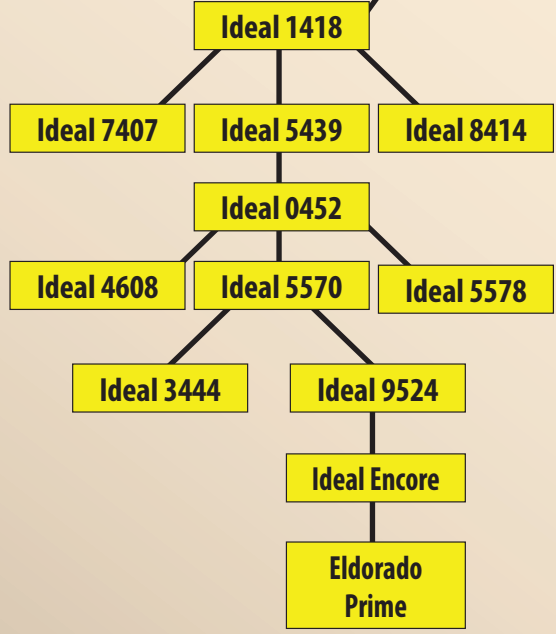

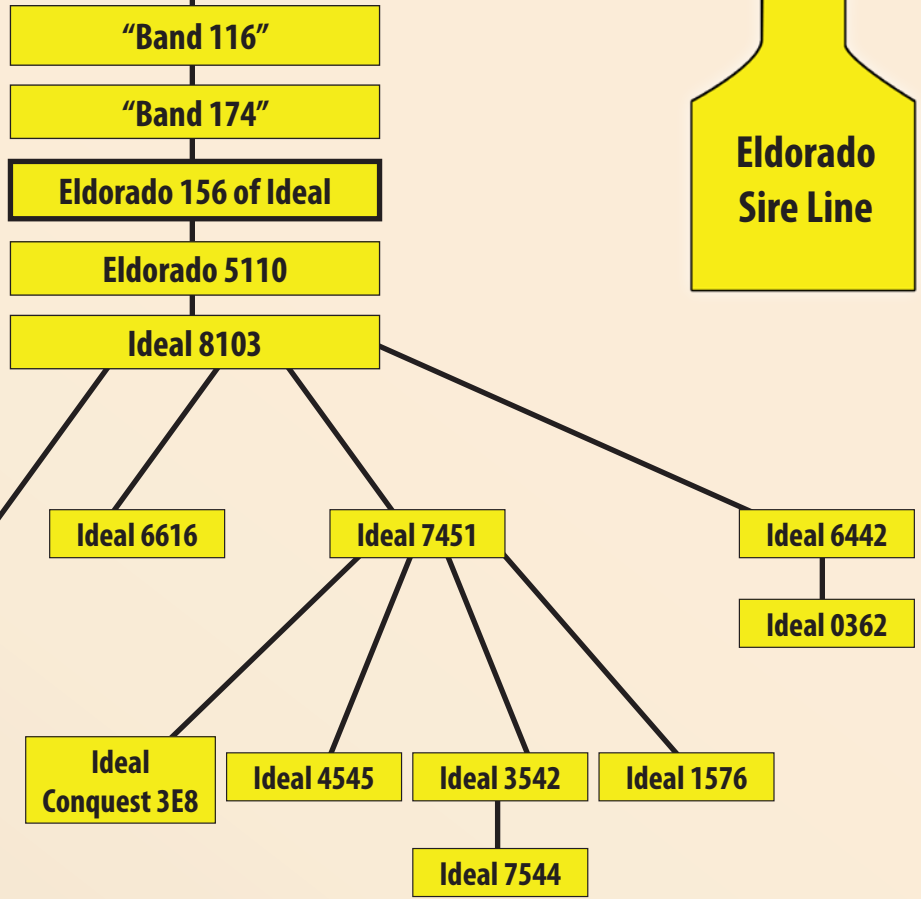

Eldorado Sire Line

Eldorado 156 of Ideal was a long-spined true performance Pathfinder Sire who left his mark on this herd and many others. Today, nearly 40 years after his birth, his progeny still hold impressive weaning and yearling weight ratios of 102 and 103, respectively. The Eldorado line developed a well-earned reputation for growth and maternal traits.

The dam of Eldorado 156 posted progeny ratios of 108 for weaning and 105 for yearling. His daughters earned a combined 101 weaning ratio and one of his full sisters was the Top Selling Female in 1989, selling to Beartooth for \$25,000. Today, a ride through our herd will cause you to notice the broody yellow-tag cows sired by Ideal 3542 and Ideal 9524, and we are impressed by the young daughters of Ideal Encore.

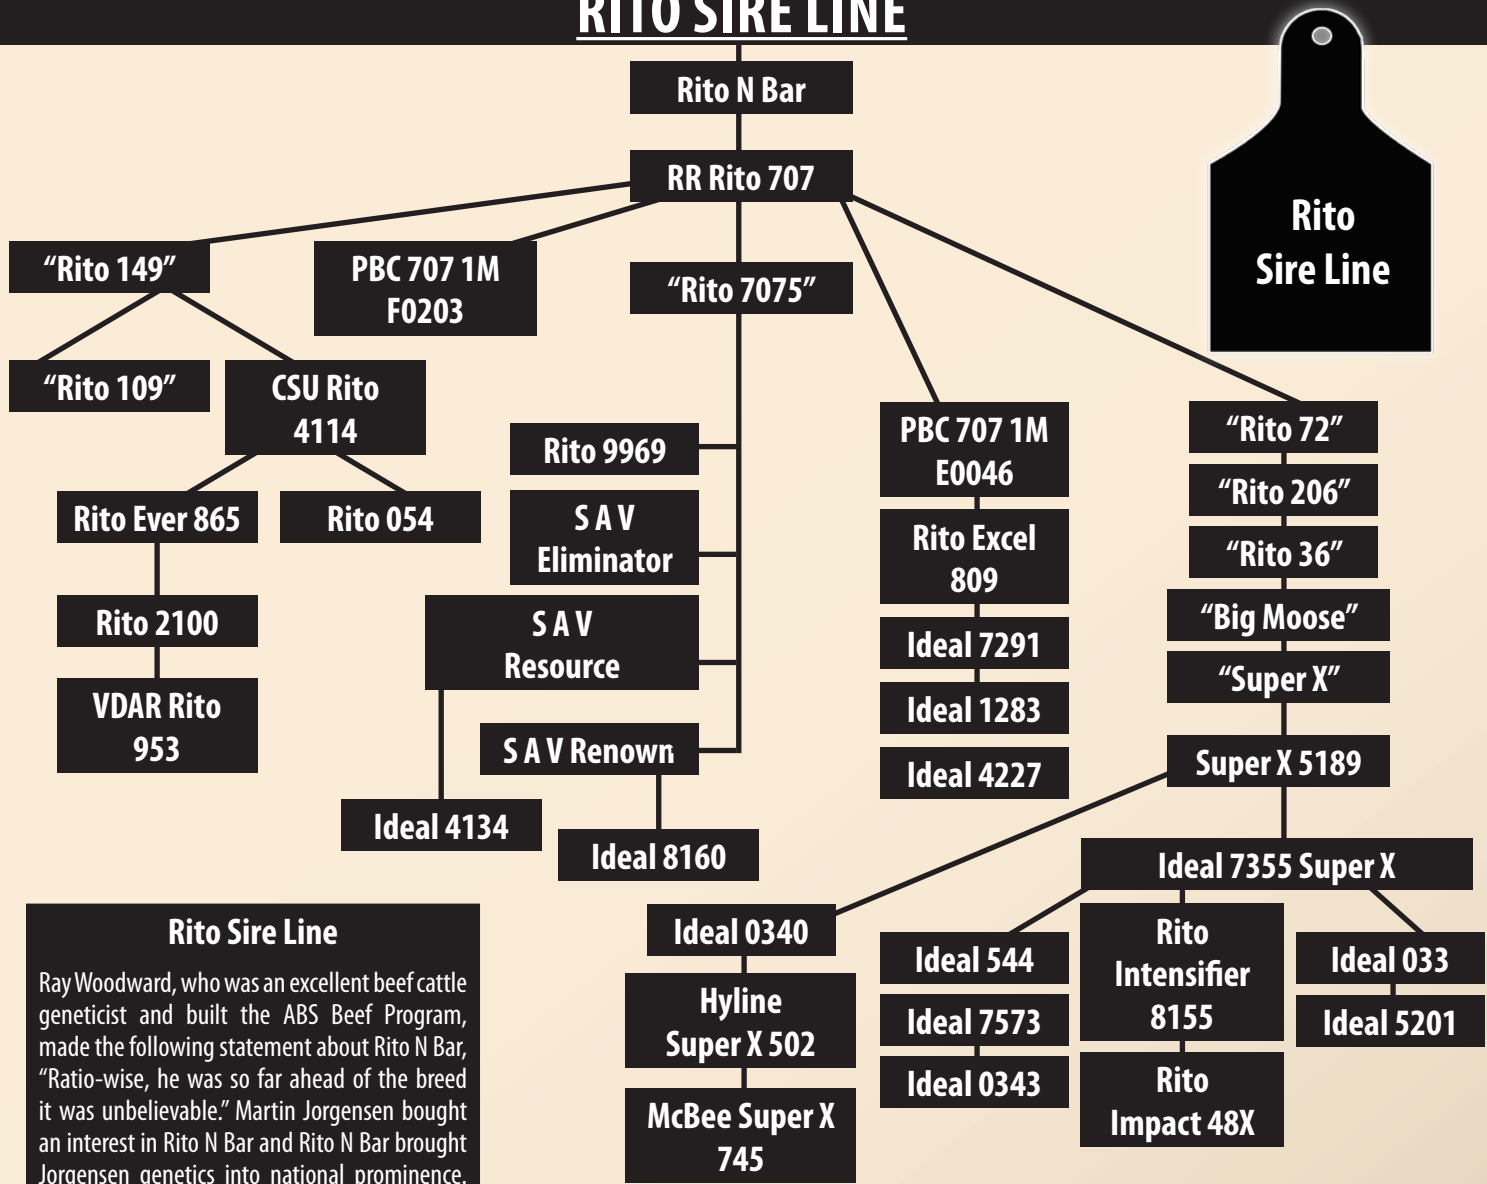

Genetic Contributions: Length of Body, Growth, Outstanding Females.

April 17, 2023

RITO SIRE LINE

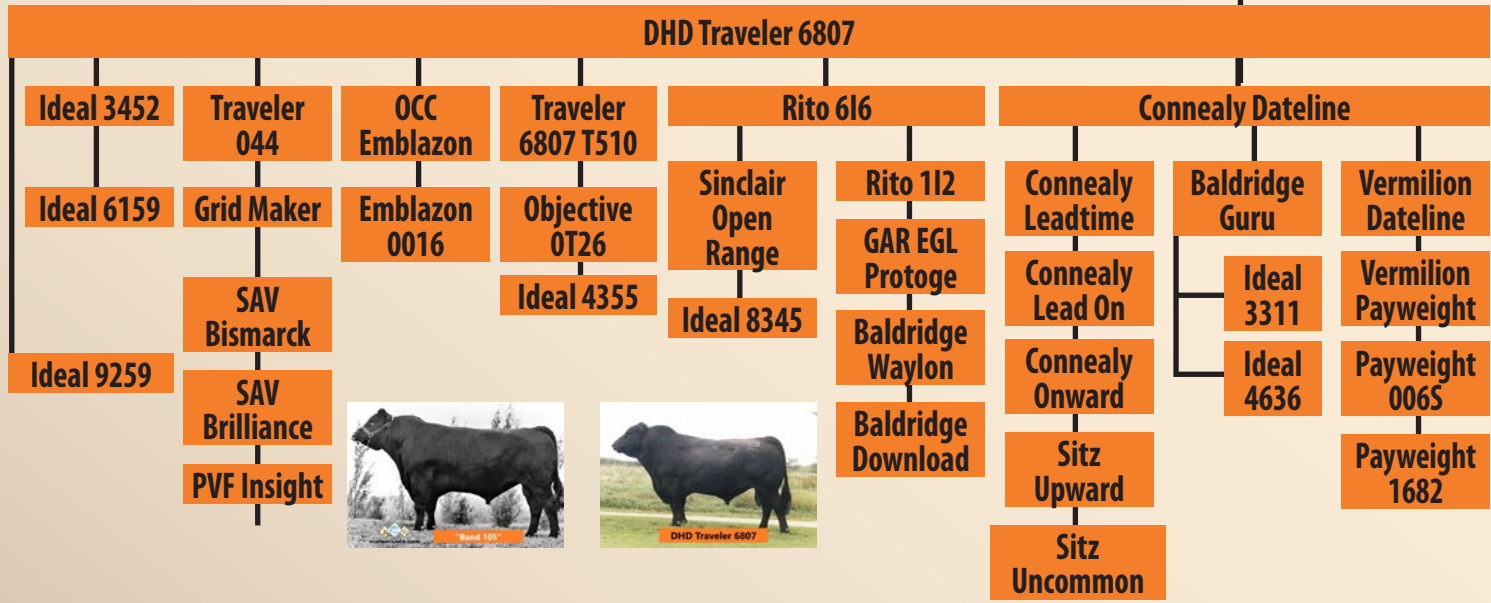

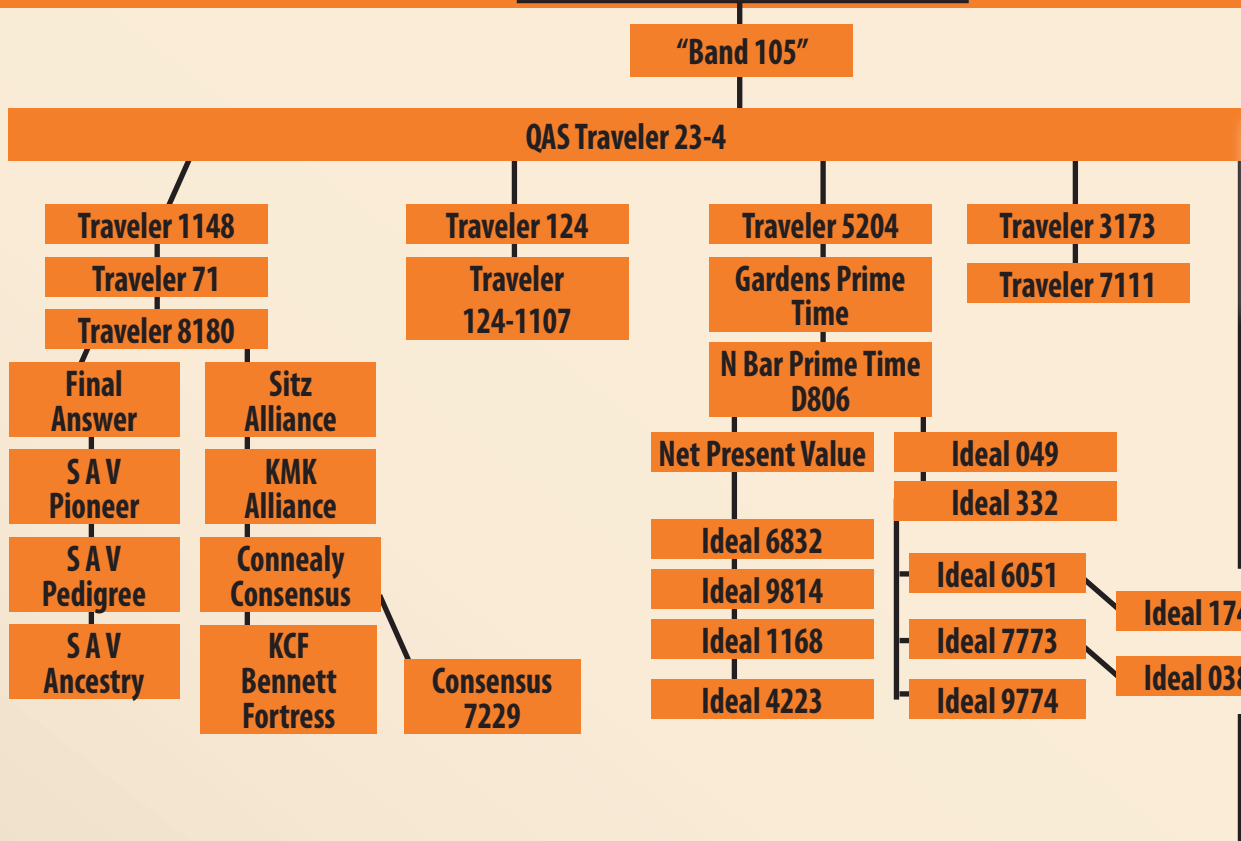

Rito Sire Line

Ray Woodward, who was an excellent beef cattle geneticist and built the ABS Beef Program, made the following statement about Rito N Bar, "Ratio-wise, he was so far ahead of the breed it was unbelievable." Martin Jorgensen bought an interest in Rito N Bar and Rito N Bar brought Jorgensen genetics into national prominence. Rito N Bar imparted performance, and his son RR Rito 707 took performance to another level. Rito 707 was the top gaining bull at the 1968 PIC Bull Test (ratio 129) and his first progeny group of 27 steers recorded an average gain ratio of 111 while grading USDA Choice (CAB grade, today). Fifty years worth of sons and daughters have compiled weaning weight and yearling weight ratios of 105, and his 453 daughters in AHIR earned a combined 102 weaning weight ratio. The Rito line continues to produce sons and daughters with muscle, appetite, growth, fertility, and efficiency.

Genetic Contributions: Muscle, Rapid Growth, Fertility, Carcass Merit, Appetite, and Efficiency.

TRAVELER SIRE LINE

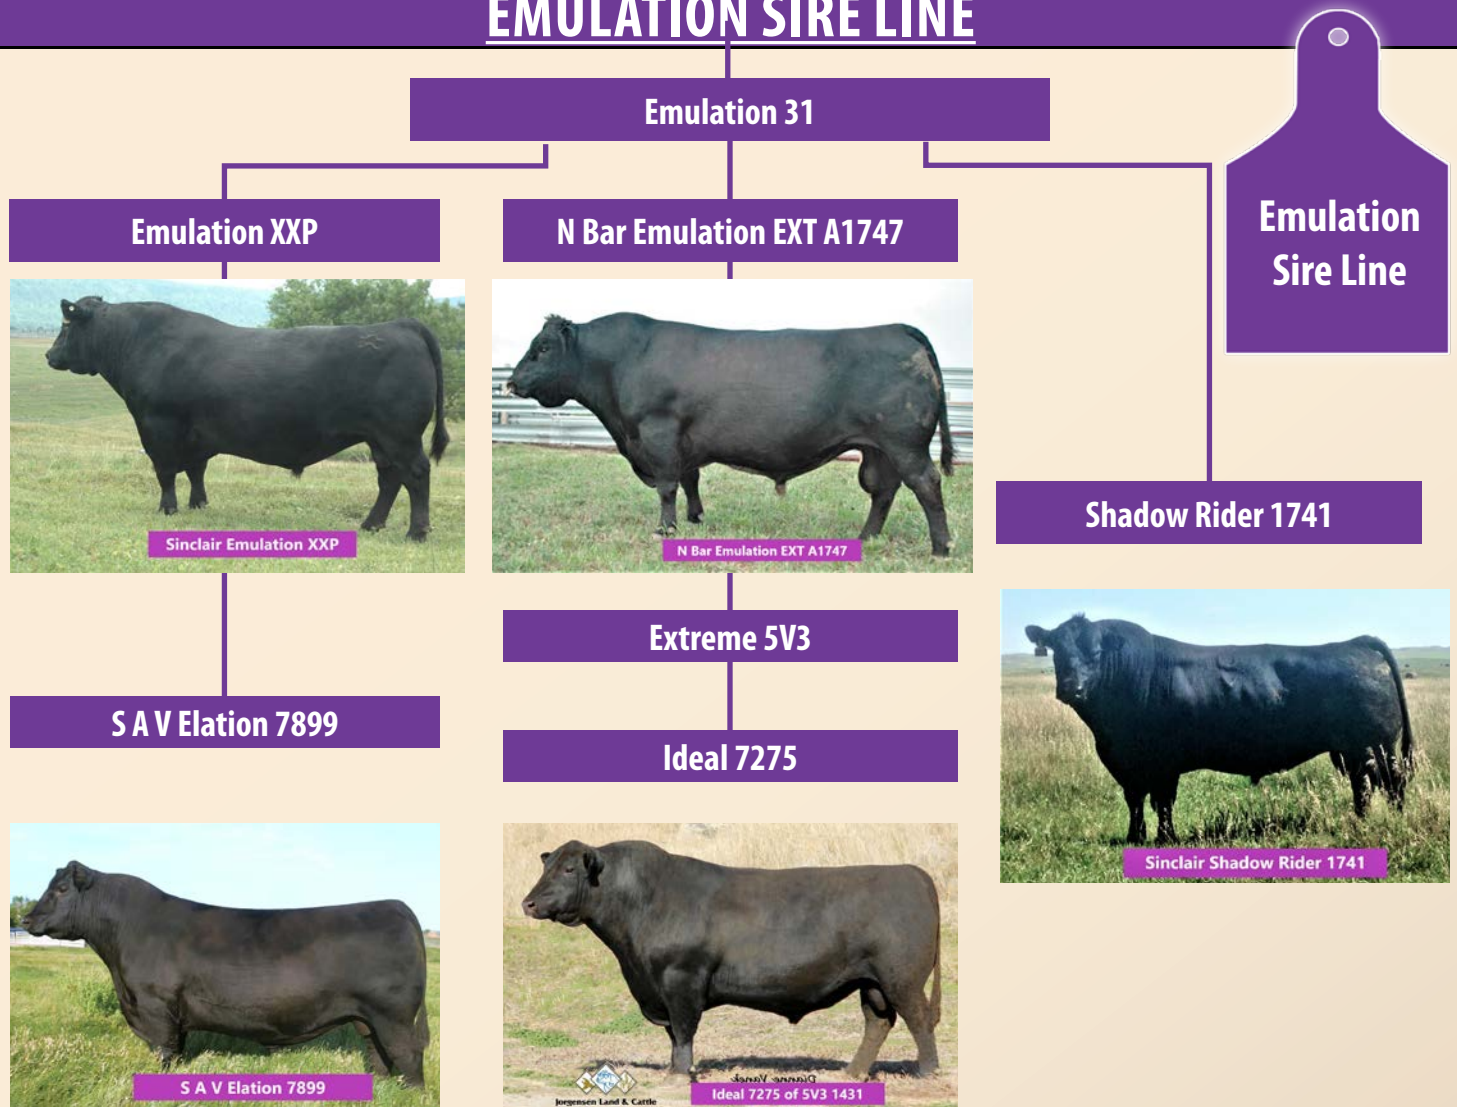

Traveler Sire Line

QAS Traveler 23-4 is the best-known son of Band 234 of Ideal 3163 ("Band 105"). A 2017 Angus Foundation-funded research project revealed that "Traveler" was the most influential sire in the Angus breed, as measured by either Marginal or Co-ancestry Contribution. His genetics make up about 10% of Angus animals born today. (Band 105 accounts for 6.3% by Co-ancestry Contribution.) QAS Traveler 23-4 was the first direct son of Band 105 to have a major impact on the Angus breed and his daughters in AHIR (almost 9,000) post a combined 101 WW ratio. QAS Traveler 23-4 produced numerous sons who have had a tremendous positive influence on the Jorgensen herd and the entire Angus breed.

Genetic Contributions: Calving Ease, Marbling, Functional Females.

April 17, 2023

EMULATION SIRE LINE

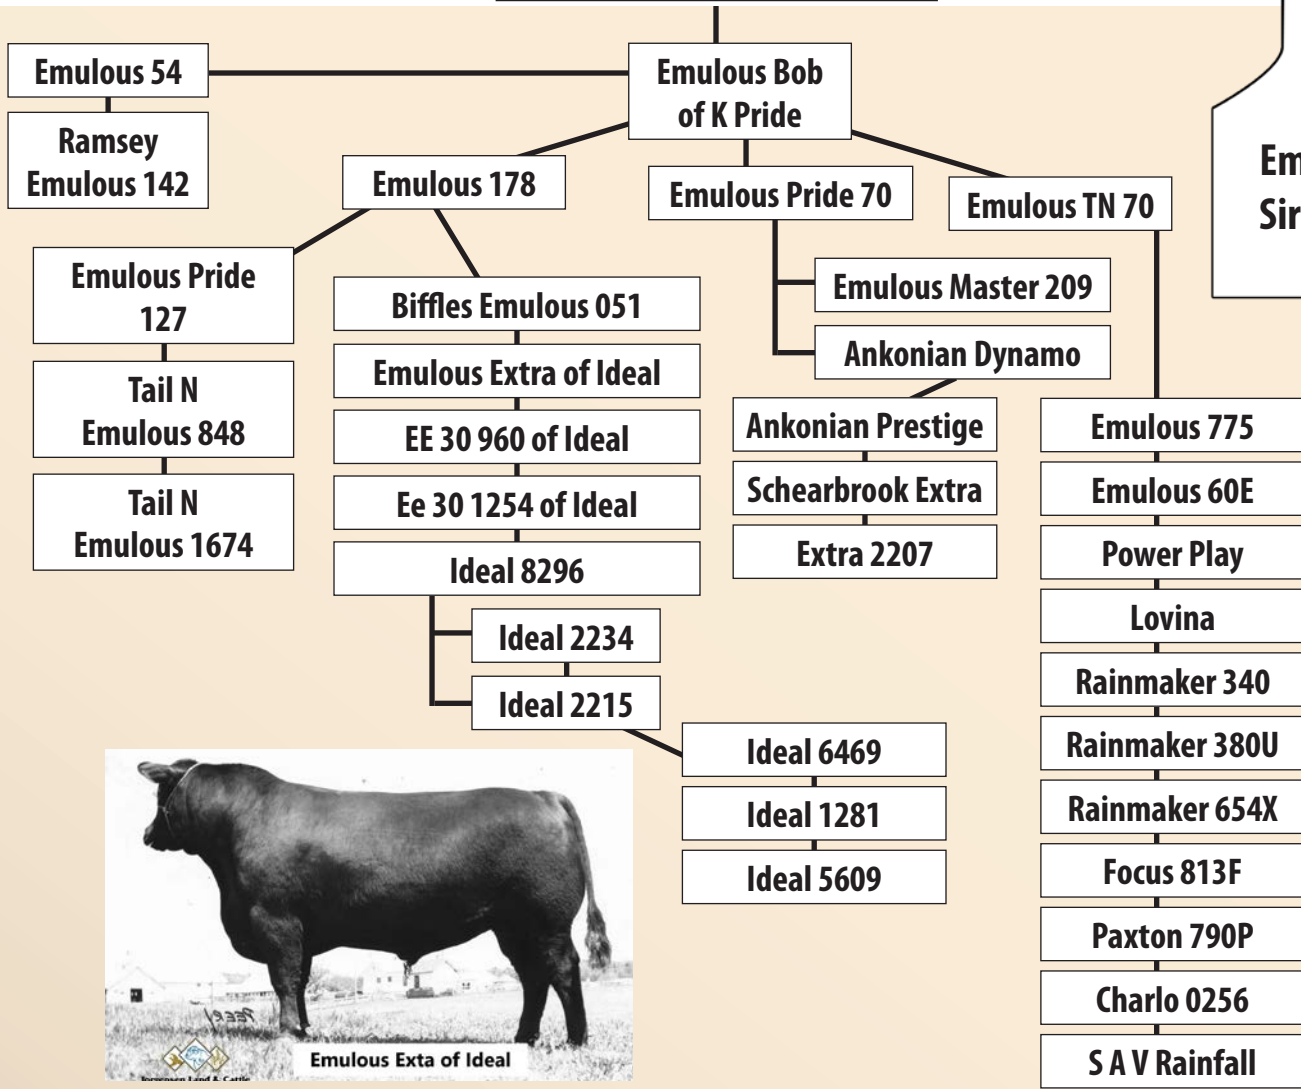

Emulation Sire Line

Historically, the Emulation line of cattle earned a reputation for bad disposition which the ranching community should no longer have to tolerate. Fortunately, we were able to evaluate and very selectively hand-pick some Emulation sires who retain the best traits of the Emulation line and still exhibit the disposition that we want in our cattle.

Genetic Contributions: Genetic Contributions: Fertility, Maternal Ability, Longevity, Excellent Udder Structure, Soundness and Carcass Quality—All are traits of importance in building profitable cow herds.

EMULOUS SIRE LINE

Emulous Sire Line

The Emulous line was largely developed during the Certified Meat Sire Program period which measured a sire's progeny in meaningful contemporary group sizes and compared them to progeny of a reference sire. Selection within this environment resulted in improved gain-ability and carcass merit. In addition, the Emulous cattle were also very sound cattle who were noted for fertility and longevity.

Genetic Contributions: Fertility, Longevity, Sound Feet & Legs, Gain-ability, and Carcass Merit.

SKYMERE SIRE LINE

Skymere Sire Line

Skylandmere 2058 was bred in the Percy Powers herd (TX) and his sire was linebred to Eileenmere 85. The Eileenmere line was noted for great females.

“Sky” as he was known in the ABS catalog, was only the seventh bull to qualify as a Certified Meat Sire through Performance Registry Int’l. “He was heavily muscled and as long as a freight train,” recalled Richard McClung (You can hear Richard discussing him on his 2022 “Brands and Barbed Wire” podcast episode.) “Sky” became an early member of the ABS Beef A.I. sire program, and Martin Jorgensen bought an interest in him in 1963. Martin was committed to improving his herd and bred every cow he owned to him for two straight years. As a result, Skylandmere 2058 built a strong set of productive cows for the Jorgensen family.

According to Dr. Bob de Baca, Skylandmere’s calves in the early, formal progeny tests were 54 lbs. heavier at weaning and gained 46 more lbs. in the feedlot — compared to the progeny of the other 90 bulls in the test. In an official AAA carcass test, his 12 steers posted an average 13.33 in. Ribeye, graded what would be CAB (today), had 62.2% dressing percentage, and did that at 16.5 months of age.

In AHIR, today, his daughters post a combined Weaning Weight ratio of 101.

Genetic Contributions: Fertility, Length, Productive Daughters, Muscle, and Carcass Quality.

AGBOOST SCORE

DATA HAS A STORY TO TELL, NOW IT HAS A VOICE

New to our sale book this year is the inclusion of each lot's AgBoost Score and associated visualization. We are excited to include this new tool that breaks the old paradigm of the spreadsheet style of displaying EPDs.

Using GEPDs and percentile rankings from the Ideal Beef Evaluation (IBE), the AgBoost score displays each lot's individual trait ranking for all the traits we currently measure in the IBE:

SC- Scrotal Circumference GEPD

DOC- Docility GEPD

BW- Birth Weight GEPD

RIB- Ribfat GEPD

IMF- Intramuscular Fat GEPD

REA- Ribeye Area GEPD

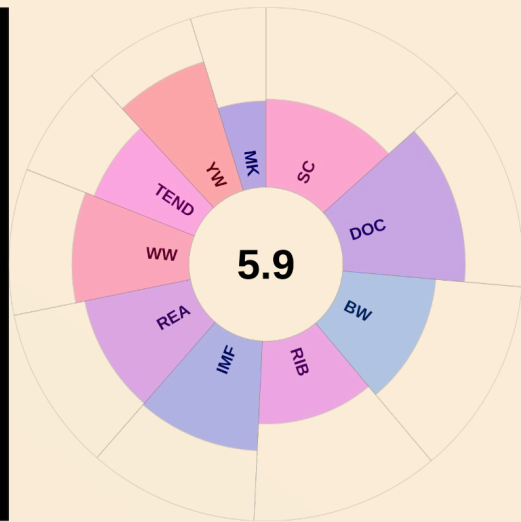

WW- Weaning Weight GEPD

TEND- Tenderness MVP

YW- Yearling Weight GEPD

MK- Milk GEPD

AGBOOST SCORE

HOW TO INTERPRET THE AGBOOST VISUALIZATION

Trait Width (Black Line)- The width of each trait on the chart is an indicator of that trait's heritability. The wider the portion, the more heritable a trait is. Traits are ordered in clockwise formation from most to least heritable

Trait Height (Blue Line)- The higher a trait reaches from the center, the better that trait's score is. Close to the center is closer to 0, close to the outside edge is close to 10

All traits are on a 0-10 scale, 10 being the best

The large score in the center of the chart is the average of all ten trait scores on the AgBoost visualization.

Learn more about AgBoost at www.ag-boost.com

Our goal with displaying our data in this new format is to help you understand quickly, efficiently and productively what bulls fit your needs.

We hope you enjoy this new way of viewing data!

CAN'T MAKE IT TO THE SALE AT THE FARM?

WE'LL BRING THE SALE TO YOU

In-Person

We enjoy getting together with friends, family, & customers, and at Jorgensen Land & Cattle - those are one in the same. There is something special about having a big crowd of folks at our Annual Production Sale; we love watching people visit, look through the bulls, eat, talk cattle & catch-up on family. We sure hope you can attend.

If you can't join us at the farm, we have been working to make sure you can participate from your home, farm, or another convenient location.

Visit Ahead of the Sale

For decades, we have done business by phone & on a handshake; that won't change! We would be happy to schedule a time for you to look through the bulls or talk you through them by phone, ahead of the sale. We can talk about what kind of bulls you want this year and we will arrange for someone to represent you at the sale, based on your instructions. It is simple and we guarantee your satisfaction. Just call us at 800-548-BULL (2855).

Watch & Bid On-Line & in Real-Time

If you have high-speed internet service, On-line bidding is a great way to participate - if you just can't be here in-person. In 2019, about 15% of our lots were sold through www.DVAuction.com. It was our first year to run our sale on video-only and offer bidding through DVAuction, and sale-week blizzard made us appreciate both of those.

Please register ahead to access DVAuction On-Line bidding; (1) Create an Account, and then (2) Apply for Bidding **at least 24-hours ahead of the sale.**

Unfortunately, dial-up or satellite internet generally will not keep-up and is not recommended for On-line bidding.

Real-Time Phone Bidding

Though not as simple as arranging for someone to represent you ahead of time, real-time phone bidding can be an option. Our sale moves faster than many registered bull sales; the average time for a bull to be sold is less than one minute, so it works best for us to talk ahead of the sale and establish a game plan for you. Please contact one of the individuals listed on Page 1 of sale book under **Sale Day Telephones** or one of the **Ringmen.**

DVAuction
Broadcasting Real-Time Auctions

DVAuction can represent your bid!

Through DVAuction, you can place limits on your bid and DVAuction will automatically increase your bid up to your preset limit.

1. Create an account at www.dvauction.com under the "Create New Account" tab
2. Apply for bidding by clicking the "Details" tab at least 24 hours prior to the sale
3. Tune in for the sale and make your purchases –or– Let DVAuction represent your bid

**If you have questions, please call:
402-316-5460**

- Ideal 2842 combines the maternal influence of the Emulation line with the 13-generation maternally perfect legacy of Ideal 5143.
- The dam of Ideal 2842 is a feminine, productive full sister to the \$23,000 valued Ideal 5123 who sold to ZWT Ranch.
- The Emulation / Rito combination created impressive Ultrasound carcass performance, as well:
- Ultrasound IMF ratio: 189
- Ultrasound RE ratio: 121
- Ultrasound Scan Weight ratio: 113
- Retaining 50% semen interest

Marjorie Cow Family

Due to our record snowfall and harsh winter, we were not able to capture weights at the proper times to properly calculate the Feed Conversion Ratios. As a result, many bulls are missing their ratios and many seemed artificially high. We were uncomfortable with reporting numbers that seemed to be "cherry picking," because that is something we just won't do. We will make the ratios available to you if you want to see them, but they do not meet our definition of reliable performance data.

"Encore" is the all-time highest Yearling Weight sire ever produced at Jorgensen Land & Cattle. His ratios just kept climbing the ladder. He was the co-Top Selling bull of the 2016 Jorgensen Bull Sale and is now the highest valued Jorgensen-bred sire of all-time at \$255,000. As a calf, he posted impressive individual ratios of BW 94, WW 123, YW 125, and Gain 128.

Encore is a true "Curve-Bender" bull: his calves Ratio 97 for BW yet put pounds on the scale at Weaning (101 Ratio) and at Yearling (103 Ratio). His daughters make nice, productive, easy calving cows that record a combined WW ratio of 102. We like them so much, it is our goal to put 300 of them into production in the Jorgensen herd.

Encore was the most heavily used sire in our 2019, 2020, 2021, 2022, and will be in the 2023 breeding seasons; that's how much we like him! He is a multi-trait sire who ranks well for CED (Top 4%), BW (Top 3%), YW (Top 20%), CEM (Top 2%), CW (Top 25%), MARB (Top 40%) and \$B (Top 25%).

If you are looking for growth but still want a bull that you can use on heifers, make sure that you look at the Encore sons.

Sons of Ideal Encore sell as LOTS 1A, 4, 5-19, and 146-156.

OWNERSHIP OF ALL BULLS SELLING

Unless otherwise noted, Jorgensen Land & Cattle is retaining one-third semen and revenue sharing interest in every bull selling through this sale. Full possession and full salvage value sells on all bulls unless otherwise noted. The bull you purchase is totally in your control in how you want to handle him; however, Jorgensen reserves the right to collect semen and share in semen sales revenue from the bull if, at some time in the future, semen sales become a possibility. If you sell the bull to another breeder, Jorgensen Land & Cattle retains their semen interest.

Possession of bulls marked as "Retaining 50% Semen Interest" will be announced prior to the sale.

+44	+44	+44	+44					

"Rito 7075" is a tremendous breeding tool. This 1997 born Jorgensen bred son of the great RR Rito 707 still sires calves that will grow and compete with any modern sire. In fact, he sired the highest WDA sire group of our entire 2021 calf crop – even topping the sire groups of SAV Renown (his son), SAV Elation (his grandson), SAV Quarterback (his great grandson), and Ideal Encore. His Progeny ratios include 102 WW, 103 YW, and they perform without adding frame.

What Rito 7075 produced in the Schaff Angus Valley herd is nothing less than impressive. His SAV-born sons include SAV 707 Rito 9969, SAV Eliminator 9105, SAV Resource, SAV Renown, SAV Registry, SAV Recharge and others. Some of the more recent bulls produced by his daughters and granddaughters in the SAV herd include SAV Certified, SAV Scale House, SAV Landmark, SAV Elation, SAV Bloodline, SAV Emblem, etc. Sons of Rito 7075 sell as LOTS 1C and 20 - 33.

Jorgensen Land & Cattle
PARTNERSHIP

www.jorgensenfarms.com
800-548 2855 (BULL)

JORGENSEN NUCLEUS HERD

- 60+ Years of Testing / Selection
- Parent Herd
- 850 Purebred Cows

15 MULTIPLIER HERDS

- Expansion & Selection

7,500 BULLS WORKING IN COW/CALF HERDS

- (Yearling, 2-y.o., 3-y.o., 4-y.o., 5-y.o. bulls)
- Producing 20 Calves per Bull per Year

130,000 CALVES PRODUCED PER YEAR FOR U.S. BEEF INDUSTRY

Each year, Jorgensen bulls sire roughly 150,000 calves across the U.S., calves that build beef cow herds and calves that produce healthy, delicious steaks, roasts, and burgers. That level of influence is something we take seriously, and that is why we never stop searching for ways to improve our genetics and their positive impacts on your cattle operation and the U.S. Beef Industry.

SAV Renown 3439 is a member of one of the most valuable matings ever created in the Schaff Angus Valley program and is a powerful grandson of the immortal Jorgensen sire, RR Rito 707. Sons of Renown have headlined bull sales across America and continue to spread the influence of the Jorgensen program.

Renown offers similar growth and even greater capacity and length than his brother, Resource. Perhaps, his greatest claim to fame will be his broody daughters. Rito 7075, the sire of Renown, was bred at "The Source" by combining the Jorgensen sire Rito 707, with the productive foundation Jorgensen female, Ideal 3407. If you examine the pedigree of Renown, you will find a total of 112 Jorgensen-bred or -owned ancestors underpinning his success; these foundation ancestors appear a total of 583 times throughout his pedigree, thanks to linebreeding and AI.

We think you will like the Jorgensen sons of Renown in this sale and the impact they will have on your herd.

Sons of SAV Renown sell as LOTS 1B and 34-47.

Revised Naming System for Jorgensen Bulls

For many years we used a naming system that incorporated the "Ideal" prefix, the bull's brand, sire's brand, and either his dam's brand or her cow family. However, that system did not indicate the Sire Line from which the bull descended and it was difficult to understand for people not extremely familiar with the Jorgensen breeding program. This system separates all bulls by distinct Sire Line and we moved the brand number forward in the name to make it easier to search the AAA database by name.

How to read the name of Jorgensen bulls, using examples from this catalog:

Ideal 0455 Eldorado of ENCR

"Ideal" prefix; brand # 0455; Eldorado Sire Line bull; Sire is Encore; (Tag color is Yellow)

Ideal 0027 Rito of REN

"Ideal" prefix; brand # 0027; Rito Sire Line bull; Sire is Renown; (Tag color is Black)

Ideal 0764 Traveler of 1168

"Ideal" prefix; brand # 0764; Traveler Sire Line bull; Sire is 1168; (Tag color is Orange)

Ideal 0259 Emulous of 5609

"Ideal" prefix; brand # 0259; Emulous Sire Line bull; Sire is 5609; (Tag color is White)

Ideal 0865 Emulation of E7899

"Ideal" prefix; brand # 0865; Emulation Sire Line bull; Sire is Elation; (Tag color is Purple)

Sire of Ideal 4134

CED	BW	WW	YW	MILK	CWT	MRB	RE	FAT
-7	+2.0	+58	+112	+31	+43	+07	+72	+0
\$W	\$F	\$G	\$B					
+57	+88	+28	+116					

Ideal 4134 posted impressive growth to Yearling, earning individual ratios of 117 WW, 116 YW, 115 ADG, and a 121 RE ratio. Ideal 6528 (his dam) is a direct maternal descendant of the "E E 4286" cow (dam of Ideal 1418 and Ideal 4465) and earned a Progeny WW ratio of 102. The combined progeny ratios of Ideal 4134's maternal ancestors (dam through his 11th granddam) are WW ratio 103 and YW ratio 101. When we saw Ideal 4134 again as a five-year-old sire at the Ballagh ranch both he and his calves were impressive, and we had to incorporate him back into the Jorgensen breeding program. Sons of Ideal 4134 sell as LOTS 48 - 58.

SAV Eliminator was the lead-off Rito 7075 son selected by Peak Dot Ranch and Johnson Livestock as \$95,000 feature bull in the 2010 SAV Sale. He is the #1 Marbling EPD son of Rito 7075. Eliminator daughters made his reputation as a great sire. His daughters have picture perfect udders, every one of them, and are the reason that we decided to use him in our herd.

Sons of SAV Eliminator sell as LOTS 1D and 63-65.

Ideal 8160 was the top-selling bull of our 2019 Bull Sale. He exhibited a strong top (posting a 125 RE ratio) and lots of growth (117 ADG ratio), and was out of a productive donor cow who posted progeny ratios of 103 WW and 103 YW. So far, the calves from Ideal 8160 have earned a combined 106 WW ratio and a 103 YW ratio.

Sons of Ideal 8160 sell as LOTS 66-70.

Jorgensen Land & Cattle

AMERICA'S #1 CHOICE FOR BULLS

Each & every year, Jorgensen Land & Cattle has been confirmed as the nation's largest supplier of beef bulls according to the **BEEF Seedstock 100 List**.

Jorgensen Land & Cattle earned their reputation as "The Source" for foundation genetics – the kind of genetics that you use to build a cow herd. We earned that reputation by consistently selecting our breeding stock based on –in this order– reproduction, fast growth, and a desirable carcass. Those three factors have been foremost in our breeding & selection criteria throughout our past 60+ years. Consistent testing, systematic selection, and discipline, generation after generation, have built our foundation breeding program. Our breeding program creates bulls that produce uniformity in the calf crops of our customers.

As you examine our catalog, be sure to notice the generations of consistent performance that have been stacked on top of each other.

We are **America's #1 Choice for Bulls** because we do the right things and we do them consistently – generation after generation after generation.

When you examine the pedigree of Pine Creek Traveler 124-1107, you find that his Sire, both Grandires, and all four Great Grandires were all Pathfinder sires. His dam is known as one of the best cows in the Angus breed, posting Progeny ratios of 117 WW, 111 YW, and her daughters have a combined 101 WW ratio. Pine Creek Traveler's progeny have ratios of 101 WW, 102 YW, 101 SC, and 103 IMF. His daughters are easy calvers, productive (103 WW ratio), and breed back. Sons of Traveler 124-1107 sell as LOTS 73-77.

Ideal Beef Genetics

Ideal Beef Genetics Utilizes the Zoetis Inherit Select DNA test.

Traits Include

- Birth Weight
- Weaning Weight
- Yearling Weight
- Docility
- Fertility
- Scrotal Circumference
- Teat and Udder
- Composition Milk
- Mature Weight
- Yearling Weight
- Dry matter Intake
- Feed to Gain
- Carcass Weight
- Intramuscular Fat
- Ribeye Area
- Fat Thickness
- Tenderness

Getting started is easy!

Baseline your herd with tissue samples, send samples and data, review your results via AgBoost Score, Select females, Select bulls

N Bar Emulation Ext A1747 is an EXT son with a good disposition, growth (Progeny ratios 102 WW and 102 YW).

We chose him because he brings the maternal and fertility traits that an Emulation sire is expected to pass to his progeny, but without the disposition issues common among some Emulation sires.

Sons of A1747 sell as LOTS 3 and 87-89.

April 17, 2023

Registration Number: 8397070
 Born: September 12, 1974 Weight: 2,450 Pounds
 Bred By: Ramsey Ranch, El Dorado, Kansas
 Certificate: \$15 each

SIRE COMMENTS:

RAMSEY had a birth weight of 60 pounds and is a calving ease bull. His birth weight average based on 70 progeny in the AHIR Performance Pedigree is 66 pounds. He is 59 inches at the hip and is Tri-State's heaviest Angus bull weighing 2,450 pounds. His sire, Emulous 54, is a 100% Certified Meat Sire who is known for easy calving and has progeny that consistently index above average in yearling weight. His dam has 11 calves with a weaning weight index of 103 and a yearling index of 105. Ramsey will improve frame, stature and produce excellent replacement heifers. His daughters are long-bodied and tall.

**Super Certified Meat Sire and
Paternal Grandsire of Tail N Emulous 1674**

LINEBRED EMULOUS ON SUPER ENCORE DAUGHTER

- Ideal 2323 is a product of 12 generations of Jorgensen breeding.
- The dam of Ideal 2323 is a super, Encore daughter that traces six times to Ideal 4465, and she earned progeny ratios of WW 2@106 and YW 1@113.
- This son of Tail N Emulous 1674 recorded the heaviest 205d WW and earned a 109 WDA ratio among his contemporary group.

Ideal 4121 of Res Betty

TIMELESS MATERNAL GENETICS

- Emulation 31 on Jorgensen Rito breeding never goes out of style
- Ideal 2833 is out of a Resource daughter that earned progeny ratios of WW 4@104 and YW 4@108. Her dam, a 12th-generation Jorgensen cow, earned a progeny WW ratio of 111 and a progeny YW ratio of 109.
- If you're focused on making superior cows, you owe it to yourself to take a look at Lot 100C. This was what we envisioned with the Motherlode program.

Jorgensen Land & Cattle

Skylandmere 2058

OLD-SCHOOL MATERNAL, MUSCLE AND CARCASS

- Ideal 2916 is the product of 60-years of Jorgensen breeding.
- The dam of Ideal 2916 is a remarkable cow; she resembles the great Ideal 4465 cow, more than any cow we have seen since, and is very productive. Her progeny ratios are WW 2@105, YW 1@112, and RE 17@105
- The sire of Ideal 2916 built the cow herd that was the foundation for our herd to produce bulls like Rito 149, Rito 72, Rito 206, and on to Ideal Encore.
- The daughters of Skylandmere 2058 in AHIR earned a 101 Maternal Weaning Ratio. They make GOOD COWS.
- In 1968, 12 of Skylandmere's steers averaged 13.33 inch ribeyes and graded what would be CAB, under today's grading standards.

Ramsey Emulous 142 is an outcross high-Marbling sire. He is direct son of a 100% Certified Meat Sire and is out of a dam who earned Progeny ratios of 104 WW and 107 YW, and he was the heaviest Angus bull at Tri-State Breeders CO-OP at 2,450 lbs. in 1982.

This Emulous Line bull earned a reputation for producing excellent, long-made replacement heifers and his daughters in AHIR earned a combined 106 WW ratio. We have been impressed with the growth rate of this group of his sons; they have continued to climb the growth ladder.

Sons of Ramsey Emulous 142 sell as LOTS 100A, 101-107 and 167-178.

Emulation 31 is the origin of the Emulation Sire Line, resulting from the mating of Elation Lad 652 to Miss Emulous 243 and a blending of the Emulous name with the Elation name. Emulation 31 proved to be a Pathfinder Sire that is still recognized for transmitting exceptional calving-ease and maternal traits. His daughters are known for their excellent udder quality, longevity, productivity, and protective mothering ability.

Sons of Emulation 31 sell as LOTS 100C and 108-109.

Tail N Emulous 1674 is a complete Angus bull, combining growth, carcass, and producing good daughters. Both of his grandsires were Certified Meat Sires, and he is double bred to Emulous Bob of K Pride, the Angus breed's first 100% Certified Meat Sire. In 1977, he achieved an impressive adjusted YW of 1,328 lbs.

This Emulous Line bull earned a reputation for being a complete sire. Sons of Tail N Emulous 1674 sell as LOTS 100B, 110-117 and 157-166.

Ideal 1418 was one of the first Angus bulls to exceed the 100 lb. YW EPD threshold. As a yearling, he posted the highest ADG (4.30 lbs) for his sire group, with an ADG ratio of 116 and a 112 YW ratio.

While his growth data is impressive (Progeny YW ratio 102), he may be best remembered for his productive daughters. Ideal 1418 is a maternal brother to the famous Angus feed efficiency matron, Ideal 4465, and he sired the "Ideal 3407" cow who was the dam of "Rito 7075" – the sire of SAV Resource and Renown. His daughter data and how impressive his daughters could be caused us to include Ideal 1418 as a sire in the MotherLode™ Project.

Sons of Ideal 1418 sell as LOTS 118-124.

S A V Rainfall 6846 is a calving ease maternal brother to SAV Resource and SAV Renown. He has a good hip and leg structure and more muscle expression than seen from most calving-ease sires.
Sons of SAV Rainfall sell as LOTS 125-137.

Our Sire Lines began separating over 160 years ago

“Rob Roy MacGregor” and “Young Panmure” were born in Scotland, to renowned breeder, William McCombie. Both were sons of “Hanton,” a bull described as lengthy, of great constitution, and who had “quarters that have seldom been excelled.”

Ideal 9524 was the Top-Selling bull of our 2010 sale. His individual performance was truly impressive, earning individual ratios of 119 WW, 114 YW, 114 ADG, 110 IMF, and a 106 RE ratio. His dam, Ideal 6809, earned equally impressive Progeny ratios of 114 WW, 107 YW, 105 IMF, and 102 RE.

Ideal Encore highlights the production record for sons of Ideal 9524, having been the heaviest YW sire ever produced in the Jorgensen program. Overall, progeny of Ideal 9524 have combined ratios of 98 BW, 101 WW, 102 YW, 101 IMF, and 100 for RE, and his 146 daughters in AHIR earned a collective WW ratio of 102. Sons of Ideal 9524 sell as LOTS 138-142.

Rito 0040 Magnum of Ideal (AAA 19888510) is the first release from the Motherlode™ Project at Jorgensen Land & Cattle, a project focused on creating great cows and herd sires that will sire Problem-

free cow herds for cattlemen everywhere. No Angus breeder has regularly used more of their own bulls in their breeding program, year after year, than Jorgensen Land & Cattle, and Rito 0040 Magnum is a great example of our breeding program. Rito 0040 Magnum traces 350 times to RR Rito 707 (MWW 102) and he traces 472 times to Skylandmere 2058 (MWW 101). This bull was selected for his structural correctness, his freedom of movement, and for his stacked maternal heritage; a linebred Rito bull that will sire great daughters and herd sires. Every Bull has 15 cows in their 5-generation pedigree. Every cow in the 5-generation pedigree of Rito 0040 Magnum is 100 or greater for Progeny WW and YW Ratios!

"Encore" is the all-time highest Yearling Weight sire ever produced at Jorgensen Land & Cattle. His ratios just kept climbing the ladder. He was the co-Top Selling bull of the 2016 Jorgensen Bull Sale and is now the highest valued Jorgensen-bred sire of all-time at \$255,000. As a calf, he posted impressive individual ratios of BW 94, WW 123, YW 125, and Gain 128.

Encore is a true "Curve-Bender" bull: his calves ratio 97 for BW yet put pounds on the scale at Weaning (101 Ratio) and at Yearling (103 Ratio). His daughters make nice, productive, easy calving cows that record a combined WW ratio of 102. We like them so much, it is our goal to put 300 of them into production in the Jorgensen herd.

Encore was the most heavily used sire in our 2019, 2020 and 2021 breeding seasons; that's how much we like him! He is a multi-trait sire who ranks well for CED (Top 4%), BW (Top 3%), YW (Top 20%), CEM (Top 2%), CW (Top 25%), MARB (Top 40%) and \$B (Top 25%).

If you are looking for growth but still want a bull that you can use on heifers, make sure that you look at the Encore sons.

Sons of Ideal Encore sell as LOTS 1A, 4, 5-19 and 146-156.

Customer Calf Sale Directory

Jorgensen Land & Cattle is proud of the genetics we offer, and we are proud of the cattle that our customers produce. In an effort to help our customers, we are offering our customers the opportunity to list their cattle for sale in our Customer Calf Sale Directory.

This list is published and shared with industry partners and parties interested in purchasing reputation animals from our customer base.

For details, call Larry Gran 605-641-3254 or Chase Kingsbury 605-840-1565.

Tail N Emulous 1674 is a complete Angus bull, combining growth, carcass, and producing good daughters. Both of his grandsires were Certified Meat Sires, and he is double bred to Emulous Bob of K Pride, the Angus breed's first 100% Certified Meat Sire. In 1977, he achieved an impressive adjusted YW of 1,328 lbs.

This Emulous Line bull earned a reputation for being a complete sire. Sons of Tail N Emulous 1674 sell as LOTS 100B, 110-117 and 157-166.

Ramsey Emulous 142 is an outcross high-Marbling sire. He is direct son of a 100% Certified Meat Sire and is out of a dam who earned Progeny ratios of 104 WW and 107 YW, and he was the heaviest Angus bull at Tri-State Breeders CO-OP at 2,450 lbs. in 1982.

This Emulous Line bull earned a reputation for producing excellent, long-made replacement heifers and his daughters in AHIR earned a combined 106 WW ratio. We have been impressed with the growth rate of this group of his sons; they have continued to climb the growth ladder.

Sons of Ramsey Emulous 142 sell as LOTS 100A, 101-107 and 167-178.

PERFORMANCE REGISTRY INTERNATIONAL AND CERTIFIED MEAT SIRES

Prior to the Angus AHIR program or the performance program of any breed organization — there was a movement within the cattle industry to measure and record the performance of bulls and cows, and the performance of their progeny. The ultimate goal was to officially & accurately record the performance and production of beef cattle, with the goal of analyzing that data and promoting the improvement of beef cattle through the use of breeding stock with PROVEN high gaining ability. By 1958, the organization designed to do this was known as PERFORMANCE REGISTRY INTERNATIONAL (PRI).

The Certified Meat Sire (CMS) program was established by PRI in 1962 and the program required that at least 10 or more progeny of a sire be required to complete a carcass evaluation and fulfill the requirements outlined by PRI. Those requirements set-out appropriate carcass standards that must be met or exceeded for a bull to earn the title of CMS.

- The first bull of any breed to earn the CMS title was Emulous 7000 (AAA) who earned the 95% CMS rating during the first year of the CMS program.
- Emulous Bob of K Pride (AAA 3336024) became the Angus breed's first 100% CMS. Individually, he was the world record-gaining bull in 1962 with an ADG of 4.29 pounds per day on a 104-day test. Later, he became the only 100% CMS bull of any breed to sire a 100% CMS bull that later sired a 3rd-generation 100% CMS bull. Emulous Bob of K Pride sired 9 sons who earned the CMS title, 17 CMS grandsons, and 17 CMS great-grandsons.

Ramsey Emulous 142 is a grandson of Emulous Bob of K Pride. You will find sons of Ramey Emulous 142 as Lots 100B, 100C, and 123-132.

Tail N Emulous 1674 is a grandson of Emulous Pride 127, the First 200% Super Certified Meat Sire of any breed. Emulous Pride 127 (AAA 6404793) is a son of a Super Certified Meat Sire (Emulous 178) who was a son of Emulous Bob of K Pride. You will find sons of Tail N Emulous 1674 as Lots 100E, 100F, 100G, 112-122, and 141-150.

Skylandmere 2058 was a long, muscular bull that sired fertile, wonderful, working daughters, such as the dams of the ABS sires Rito 149, Rito 72, Rito 206. In AHIR, today, his daughters post a combined WW ratio of 101. In an official AAA carcass test, his steers posted an average 13.33 in. Ribeye, graded what would be CAB (today), had 62.2% dressing percentage, and did that at 16.5 months of age. Sons of Skylandmere 2058 sell as LOTS 100D and 179-191.

IDEAL BEEF EVALUATION

The Jorgensen family has always strived to find better ways to do things, whether creating better beef cattle genetics, crops, or soil conservation practices, and that heritage of innovation led us to work with Zoetis to create the Ideal Beef Evaluation.

This proprietary genetic evaluation is the product of a partnership between Zoetis and Jorgensen Land & Cattle. This joint project combines the tremendous performance-testing data set & DNA bank of Jorgensen Land & Cattle with the genetics, analytical, and R&D teams of Zoetis, along with their gold standard HD50K genomic test.

The Ideal Beef Evaluation is backed by over 200,000 phenotypic performance observations from both Registered & Commercial Angus herds and more than 17,500 HD50K genomic tested animals. The combination of performance and genotypic data from these herds creates greater selection accuracy for our herd and for our customers.

How Does the Ideal Beef Evaluation Benefit Cattlemen

We always strive to match the right bull with the needs of each bull customer and the Ideal Beef Evaluation gives us a better understanding of the genetic makeup of each of our bulls, and that allows our commercial customers to make more informed bull buying and leasing decisions to help them reach their goals.

Genetic Predictions

Our initial launch of the Ideal Beef Evaluation (2019) produced genomic-enhanced EPDs for BW, WW, YW, SC, Milk, IMF, REA, and FAT. In addition, we incorporated those data into two easy-to-use Selection Indexes: a Jorgensen Versatility Index (JVI) for bulls to be used on Heifers (JVI-H) and for bulls to be used on Cows (JVI-C).

Since then, our R&D efforts have already produced the addition of two new traits to our portfolio; a first in the industry EPD for predicting the likelihood of yearling bulls passing a Breeding Soundness Exam (**BSE**) and a prediction of Docility (**DOC**).

Current Traits and Indexes

- ◆ Birth Weight (**BW**)
- ◆ Weaning Weight (**WW**)
- ◆ Yearling Weight (**YW**)
- ◆ Scrotal Circumference (**SC**)
- ◆ Milk (**Milk**)
- ◆ Jorgensen Versatility Index—Heifers (**JVI-H**)
- ◆ Jorgensen Versatility Index—Cows (**JVI-C**)
- ◆ Intramuscular Fat (**IMF**)
- ◆ Ribeye Area (**REA**)
- ◆ Rib Fat (**FAT**)
- ◆ Rump Fat (**RFAT**)
- ◆ Breeding Soundness Exam (**BSE**)
- ◆ Docility (**DOC**)

Jorgensen Land & Cattle

Better Doesn't Need to Be More Complicated

How many numbers do bull buyers really want to juggle when selecting bulls? Bull selection can be as complicated as you want ... but it doesn't have to be. Our new JVI-H and JVI-C allow you to simultaneously select for more than one trait without feeling like you are trying to do algebra.

Announcing Jorgensen Versatility Indexes • JVI-H and JVI-C

Jorgensen Versatility Indexes (**JVI**) are Selection Indexes that were created to help commercial cattlemen take advantage of the power of the Ideal Beef Evaluation without having to juggle multiple numbers. Selection Indexes are tools that help cattlemen select for multiple traits by combining those traits into one single number. Our partnership with Zoetis produced the **JVI-H**, which incorporates multiple traits and weights them with priorities that favor bulls more suitable for use on Heifers. The **JVI-C** places less emphasis on Birth Weight and allows more selection for Growth and Carcass traits.

◆ Higher Index Scores indicate better overall genetic merit.

GE-EPDs Incorporated in the JVI-H and JVI-C

- Birth Weight (BW)
- Weaning Weight (WW)
- Yearling Weight (YW)
- Milk (Milk)
- Scrotal Circumference (SC)
- Intramuscular Fat (IMF)
- Ribeye Area (REA)
- Rib Fat (FAT)
- Rump Fat (RFAT)

Jorgensen Versatility Indexes

- **JVI-H (Bulls for Heifers)**
- **JVI-C (Bulls for Cows)**

Additional Numbers to Study

JLC FOOT SCORE GUIDELINE

We evaluate the feet of each bull for soundness, utilizing a 5-point scale (higher is better). Both Cody and Pat Donahue (Director of Livestock Operations) separately score the feet of each bull, then assign a final score based on the average of the two scores. See the Foot Score Chart below for more information.

JLC FOOT SCORE CHART

1) **UNSOUND** Extremely weak on pastern set, open toed or extreme screw claw in both toes. Vertical & horizontal cracking.

2) **MARGINALLY UNSOUND** Open-toed, moderate crab claw, curling in one or both toes near crossing. Somewhat weak on pastern set.

3) **AVERAGE SOUNDNESS** Moderately open-toed, tendency for claws to curl, with one claw larger than the other. Acceptable on pastern set.

4) **ABOVE AVERAGE SOUNDNESS** Slightly open-toed, slight tendency for claws to curl, one claw may be slightly larger than the other. Above average on pastern set.

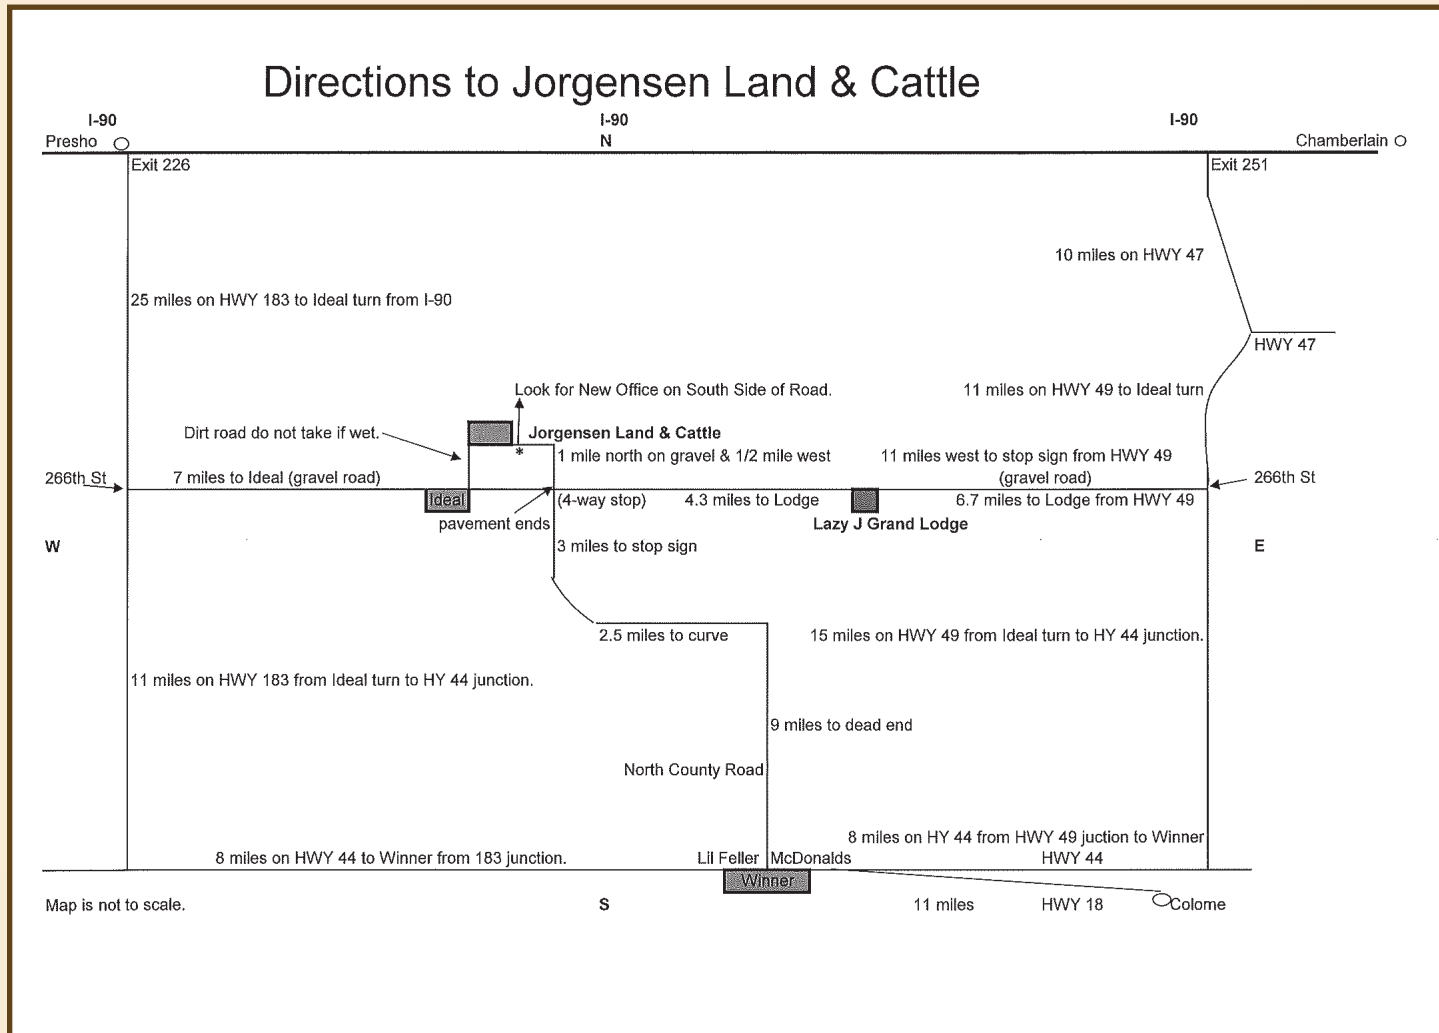

5) **IDEAL FOOTED** Symmetrical claws with appropriate space between claws, also the correct angle for proper wearing of the claws or toes. Ideal on pastern set.

Map and Inbreeding Coefficient

The 2023 Sale will be held at the JLC headquarters
31250 265th Street • Ideal, SD

We look forward to seeing you!

Each footnote contains an “Inbreeding Coefficient” number.
The following is a short explanation of what that number means.

Inbreeding Coefficient – Measurement of Inbreeding

The Inbreeding Coefficient (IC) measures the percent increase in homozygous gene pairs in an individual, relative to the average of the population from which the individual originated. The value is reported as a percentage, such as 10.5%, and in this case would mean that this animal is expected to have 10.5% more homozygous (or identical) gene pairs than the average animal from the same population.

Generally speaking, it is rare when an IC would exceed 30%, though it is possible for an IC to be as high as 50% to 60% in beef cattle herds where inbreeding has been practiced for 40 to 50 years.

Adapted from Inbreeding in Cattle by (Northcut, D. Buchanan, A. Clutter - Oklahoma State Univ.) and other sources.
