

# ELDORADO *sire line*

*Eldorado Sire Line:* Eldorado 156 of Ideal was a long-spined, true performance Pathfinder Sire who left his mark on this herd and many others. Today, nearly 40 years after his birth, his progeny still hold impressive weaning and yearling weight ratios of 102 and 103, respectively. The Eldorado line developed a well-earned reputation for growth and maternal traits.

Today, Ideal Encore has rightfully inherited the role of patriarch of the Eldorado Sire Line through his combination of dominant performance, fluidity of movement, length of body, great disposition, progeny performance ratios (97 BW, 101 WW, 103 YW, 105 IMF), and his ability to sire great daughters (103 daughters earned a combined 102 Weaning ratio).

*Genetic Contributions:* Length of Body, Growth, Outstanding Females.
